REPORT OF CHIEF OF FIRE DEPARTMENT

During the year 1935 the Lincoln truck was used for calls six times for fires at the homes of George LeClair, Fred George, Ralph True, Moses Seavey, Arthur Bean and Samuel Willey, in addition to the above both trucks were used for forest fire calls.

During 1936 there were fires at the homes of Percy Proctor, Curtice Sanborn, Arthur Moore, Francis Faulkner, Emedie Beaulieu, William Beede, Allen Hall, Herman Sanborn, Harry Haselton, the Follett house and a pile of wood near boiler room in addition to a call at Fred McFarlan's.

The pumper was used for three emergency calls and five forest fires, four in town and one in Danville. The Ford was used in conjunction with the Lincoln on four occasions — it being especially useful at the woods fire back of Charles Heath

residence when it was driven deep into the woods carrying a supply of water which quenched the fire at a section where there was no path and no other available machine could have travelled.

We feel that we have a very efficient fire department for this sized town and now, due to the action at the last town meeting and the splendid cooperation of many of our citizens we have nearly completed a fitting home for our outfits. We hope that an additional appropriation will make possible in the very near future the completion of this building.

It would be impossible due to lack of space to name the many who have given freely of their time, labor, money and equipment to make our fire house as near complete as it now is. Truck owners have repeatedly loaned the use of their trucks, the men have worked many days and evenings as well and others who unable to labor themselves have hired others to take their places or given money to be used in the erection of the fire house.

A close estimate at this time gives about \$1,700.00 as the final cost of the building — a saving to the taxpayers of the town of at least fifty per cent had not so much been done free of charge.

Respectfully submitted,
ROBERT W. SMITH, *Chief*

July 1936

REPORT OF SUPERINTENDENT

To the School Board and citizens of Fremont:

I herewith present my tenth annual report, as Superintendent of the Fremont Schools.

TEACHING STAFF

Below is the list of teachers for this school year:

<i>Name</i>	<i>Trained at</i>	<i>Experience</i>
Lula Ball	Plymouth '21	14
Mrs. Blanche Gauthier	Keene '23, Plymouth '25	14
Edith Stevenson	Keene '27	9
Mrs. Clara Towle	Plymouth '28, Keene '27	17

You will notice that the same four teachers remain on duty for this year. Their total of experience which averages $13\frac{1}{2}$ years of service, represents an item that should mean a great deal to you in retaining power and satisfaction. As this goes to print, we sincerely hope that the unfortunate accident to Mrs. Towle will not result in a long period of absence from her work in the schools.

PUPIL ACHIEVEMENT

The following table will show how the pupils of Fremont were classified by grades according to May, 1936:

Test Scores:	Reached or Bettered Score	Below Grade
Grade 1.	11	0
Grade 2.	14	2
Grade 3.	11	2
Grade 4.	14	0
Grade 5.	9	0
Grade 6.	15	2

Grade 7.	11	1
Grade 8.	9	0

This above represents a total of less than 7% below grade, which is indicative of good grading and placement. Some districts are faced with 20 and 25 per cent below grade and yet without alarm. This is a low figure and should give you no cause for fear. The instruction remains the same and none the less vigorous than in former years.

FINANCES

A comparison of school costs of this union should be of interest to you:

You will notice from this tabulation in the net figure column, the effect of State Aid upon your costs. There are only three other districts in this union in a more favorable situation. Kindly notice the very substantial reduction taking place over the figure of three years ago.

Per \$1,000 of equalized valuation 1935-36, for some of the 242 Districts in the state, including those of this union

In this compilation, Fremont enjoys an enviable position—higher than the State Median district. The most of the towns above the median receive little or no State Aid. If you subtract the \$2.28 in State Aid from the Total Current, you note that local taxation on real estate bears only a burden of \$8.15 per \$1,000 of its Equalized Valuation. I can assure you that this is a most excellent condition.

Music

An innovation has been started this year in the field of music teaching in the schools. Prior to this year three districts of this Union had supported a music teacher and supervisor. The other five districts relied upon the varying talents of their teachers to carry on the program in this important phase of cultural and leisure-time attainments. So, with a desire to see the development and co-ordination of these efforts, the State Department of Education offered to finance the salary of a music teacher in all state-aided districts provided a whole Union would finance the necessary travelling expense. This

offer was placed before every Board in this Union and accepted this Fall. The organization was completed and became effective November 30, 1936.

In the short time that the plan has been in operation, we find a hearty response to its effectiveness and value. The schools in which no supervisor formerly taught are enthusiastic for the innovation. I am happy to say that I believe this plan for music instruction of this type is the most important development we have accomplished during my tenure in this office. A warning to all concerned was given that the expectation of results need not be great for the remainder of the year but our fondest hopes have been exceeded by the accomplishments to date.

Financially, this arrangement has proved a help to those districts in which a supervisor had not been employed. The salary proportion for which they are responsible now becomes a part of State Aid whereas they formerly bore the whole cost. The five new districts have added but a small charge for travelling expense, the salary being no charge whatsoever.

CONCLUSION

I am again pleased to report the genuine cooperation of a conscientious teaching staff and the sympathetic guidance of an interested School Board. The work of the year has been both pleasant and profitable for pupils and school officials.

Very respectfully,

HAROLD C. BOWLEY,

Superintendent of Schools
